

Sprint 4

Team ID	PNT2022TMID32392
Project Name	Project - IoT Based Safety Gadget For Child Safety Monitoring & Notification
Maximum Marks	2 Marks

After setting the geo-fence by parents or caretaker, if the child crosses the geo-fence, then an alert notification will be sent by the device to the Parent or Caretaker through SMS, along with the URL which contains child's current location.

Yesterday 22:24

Sent from your Twilio trial account
- Alert: Your child is outside the
geofence. <https://node-red-lspwr-2022-11-17.eu-gb.mybluemix.net/worldmap/>

Today 00:13

Sent from your Twilio trial account
- Alert: Your child is outside the
geofence. <https://node-red-lspwr-2022-11-17.eu-gb.mybluemix.net/worldmap/>

Today 08:49

Sent from your Twilio trial account
- Alert: Your child is outside the
geofence. <https://node-red-lspwr-2022-11-17.eu-gb.mybluemix.net/worldmap/>

This is SMS sent by the device to the care taker which contains an alert message called: “Your Child is outside the Geo-fence”. By clicking the URL provided in the SMS, we can view the child’s location.
